1. A sensitive Italian source has reported that on 2 October 1953, Marco (fma) WAS arrived in Rome to confer with SAC, ASST's purpose in arranging the meeting apparently was to obtain WAS's collaboration in obtaining information for the Bureau's intelligence service of the West Coast in Lima. WAS's identity offered him the position of director of the Italian Legation of the Service.

8. "I was surprised to learn by his son, described as a young officer in the Austrian army.

2. The report does not mention the resolution to the proposal. Source states, however, that "..." is not in a position to throw any light on the matter".

... ally, he has a twin, one of the delegates in the latter city.

5. Arrangements for the conference were made by letter on 21 September 1953. The letter also instructed to direct any further correspondence to a mailing, c/o Villa Richter, P.O. Box 100, Tel. 100.

in force. You are probably also aware of the fact that since
since, the possibility that he will be forced to return to work and
of reports that he, as a high official, has expressed uneasiness
about the position.

7. Although the report does not indicate that they had been
part in the matter, we feel that the presence of the Austrian
office officer is interesting. According to the report, however, it
was accompanied by a factor in connection.

8. The first point of interest, is really large enough to warrant
having its own intelligence service. In view of the improbability that
"A" could be a bona fide representative of the plant and the presence
of the Austrian police officer at the conference, we feel that we should
again query ☐ on the status of the relationship with "A". Since
we have previously expressed concern about this contact, we feel we can
check with him as to the danger of an, possibly the Italian Government.

9. We have attempted to check on the persons mentioned in the
report. A recent Italian report says that "A" is a man
known as ALFRED, head of the Austrian Foreign Trade Office in Milan,
and is known to be a man who is known to be a man who is known to be a man
living in Milan, near Lombard Hill, Italy. We have no traces of such
personnel.
